

# CASE STUDY

## Heavy Equipment Yard Site

- ▼ **LOCATION:** Emerald Park, SK
- ▼ **PROJECT TYPE:** Yard Site for Grain Transfer Processing Company - Product Supply
- ▼ **PRODUCT USED:** Swamp Grid™ 40

### ▼ **PROBLEM:**

The yard site was 2 acres of saturated soil, and needed to withstand heavy equipment traffic.

### ▼ **THE TITAN SOLUTION:**

The client was looking for a solution to stabilize saturated soils in their yard. We conducted an assessment of the site condition with the client on site and determined that Swamp Grid™ 40 would be the ideal solution for this site. Because it provides superior stabilization while helping to prevent fines from migrating back up into the good granular and also allows for sub base drainage We supplied 8,000m<sup>2</sup> for the 2 acre site.

### ▼ **ACHIEVEMENT:**

Swamp Grid was the best long-term solution for this project. It's quick compaction reduced project completion time, which resulted in the yard being utilized quickly.
